- Frontend Developer**
Sizin (Tehran)
Apr 2021 - Sep 2023
1 year of project-based collaboration as a Front-End Developer (React) at Sizin.
Contributed to the development of a shopping application for store owners and customers.
 - Designed and implemented the front-end using React
 - Optimized app performance and user interaction to enhance user experience
 - Collaborated with the design and development teams to deliver efficient solutions

Projects

- Chess**
SQE.io
Chess Challenge is a web-based chess game developed using React. The application offers a smooth and interactive chess experience, featuring online matches, move analysis, and a user-friendly design. The main goal of this project is to create a modern platform for chess enthusiasts that both beginners and professionals can enjoy.

- **ChatGPT**

Designed and developed a subscription-based service using Next.js for centralized access to a variety of AI tools. Enabled users to purchase subscriptions and gain unlimited access to multiple AI models within a single platform.

Key Features:

- Online payment and subscription management
- Optimized user interface for seamless interaction
- Integration of multiple AI APIs
